OBJECTIVE

To get started right away, just tap any placeholder text (such as this) and start typing.

EXPERIENCE

BV Mobile Apps

IOS Developer Nov. 2019 – March 2020

- Developed tests in which I utilized in the creation of the sign-in for BV mobile's client-facing app.
- Designed and created a notification alerting the user of new features after an update.
- Added contextual actions to the Blog view enabling copy, new, and delete functionality.
- Enabled using Swift in an Objective-C codebase, also contributing to Objective-C while not having any prior training or experience in Objective-C.

EDUCATION

- Full Sail University Mobile Development Bachler's in Science 2019
- Full Sail University Media Communications Certificate 2023
